

## St. Joseph's Long-Term Care COVID-19 update

Friday, April 1st, 2022

Details	#	Special Considerations
Active Positive Resident Cases	0	Hummingbird home area is currently under precaution as directed by Brant County Health Unit. Families are required to wear face shields when visiting residents on Hummingbird until swab results are received and further direction given from public health.
*Residents Awaiting results of PCR test	2	
Active Positive Staff Cases	4	
**Staff being monitored (this includes positive staff cases)	8	
***Staff returned to work	130	
<p><b>Additional information for today.</b> Beginning Monday, April 4<sup>th</sup>, we will begin rapid antigen testing on a daily basis, due to a rapidly growing number of COVID-19 cases in the province. This will apply to all visitors and staff.</p>		

### Explanatory notes

\*There are a number of reasons why residents undergo a PCR test:

- Admission / readmission
- Symptomatic of COVID 19
- Positive results on a RA test
- High risk exposure
- Surveillance testing

\*\*Staff can be monitored for a number of reasons such as:

- They are confirmed positive
- They have tested positive on a rapid antigen test and are awaiting results of a PCR test
- they are symptomatic but have not tested positive
- they are a close contact of someone who has tested positive

\*\*\*Not all staff absences are due to testing positive for COVID 19. They may have been away due to the reasons listed in the "Monitoring" section above.

Please note that the total number of cases listed on the Brant County Health Unit website reflects the total number of cases since the outbreak began, not the active case count.
