

St. Joseph's Long-Term Care COVID-19 update

Friday, Feb 18, 2022

Details	#	Special Considerations
Active Positive Resident Cases	1	Magnolia home area remains in Suspected Outbreak. Residents on Magnolia who require assistance for meals can go into the dining room - socially distanced. Those residents who can eat independently will receive tray service in their rooms.
*Residents Awaiting results of PCR test	20	
Active Positive Staff Cases	5	
**Staff being monitored (this includes positive staff cases)	10	
***Staff returned to work	95	
<p>Additional information for today. Awaiting results on swabs for residents on Magnolia. Results of swabs done on Pine Trail residents show no positive cases.</p> <p>Please note that due to a statutory holiday on Monday, Feb 21, there will be no case count update posted.</p>		

Explanatory notes

*There are a number of reasons why residents undergo a PCR test:

- Admission / readmission
- Symptomatic of COVID 19
- Positive results on a RA test
- High risk exposure
- Surveillance testing

**Staff can be monitored for a number of reasons such as:

- They are confirmed positive
- They have tested positive on a rapid antigen test and are awaiting results of a PCR test
- they are symptomatic but have not tested positive
- they are a close contact of someone who has tested positive

***Not all staff absences are due to testing positive for COVID 19. They may have been away due to the reasons listed in the "Monitoring" section above.

Please note that the total number of cases listed on the Brant County Health Unit website reflects the total number of cases since the outbreak began, not the active case count.
